### Signing In:

'Freedom' is a magic word which captures the attention of young and old. Every day we hear about the struggles to gain freedom and independence. The real freedom is the inner freedom, freedom of the mind. Every Indian gratefully acknowledges the indomitable figure of Indian Independence: Mahatma Gandhi. We have gained the independence from the foreign rule but, the real freedom is still elusive and we need to work hard to achieve it. We pay our respect to Mahatma Gandhi and we shall make a pledge to strive for the inner freedom. You may never know what results come of your actions, but if you do nothing, there will be no results.

You can chain me,  
You can torture me,  
You can even destroy this body,  
But you will never imprison my mind

Happy  
Gandhi Jayanti..

### Principal's Desk

"Education that does not teach morals and civility can only produce human psychos and sadists" felt Sigmund Freud.

Global peace is possible only with happy individuals. The key to happiness is not that you never get angry, upset, frustrated, irritated or depressed, but, it is how fast you get out of this jungle. Life is very short. So, forgive quickly, love truly, laugh loudly and realize there is nothing small or low in this world, every one of us is a powerhouse of latent talents. So, keep the green tree in your heart, the singing birds will surely come. It is better to be women of values, be courageous and dare to face any situation or problem with a pleasant smile.

Dr. Sr. Mercy
